Ancona® Steel Multi Column

Italy has earned an outstanding worldwide reputation for being at the leading edge of radiator design, style and practical functionality. Produced in our factory in Italy the Ancona® range of Steel Multi Column radiators take the classic look of cast iron and combines it with the flexibility of steel; suitable for all interiors. Multiple column depths, heights and widths provide an extensive choice of sizes and outputs to suit any room or location.

Stock (pages 8-15)

Our stylish and timeless stock Ancona® steel multi column is held in our UK warehouse for fast delivery

The most popular 2, 3 or 4 column sizes in 5 height options and 3 mounting options are available from stock;

- White RAL 9016 delivered in 48-72 hours
- Bare Metal Lacquer delivered in 48-72 hours.
- Feature Finishes: Copper, Graphex & Pearl Bronze delivered in up to 3 weeks.

We list all possible combinations on pages 130-137 in the technical section

Made To Order (pages 16 - 25)

The perfect solution, made to order in our Italian factory to fit your requirements.

We offer a vast range of sizes of Ancona Multicolumn in 2 - 6 column options, with 3 different mounting options wall-hung, cast feet or welded feet. Added to this we have over 188 RAL colours plus 36 special finishes including Galvanised & Bare Metal Lacquer.

Combine all these choices and you have over 3 million combinations of sizes, colours and mounting options. To help make selection easier please use our **online radiator builder**, a simple way to select the best size and options for your space.

Ancona® Finishes & Options

Ancona® Bare Metal Lacquer (pages 14-15)

This industrial bare metal finish is hand finished so every radiator is unique, variations in colour, welding and burnishing marks differ from one section to another and add to the idiosyncrasy of each radiator. Once sections are hand burnished to give a smooth surface, a clear gloss lacquer is applied, protecting the bare metal and enhancing their irregular nature and individuality. **We offer a large range of stocked sizes, see pages 136-137.**

Antique Brass

Antique Copper

Satin Nickel

Ancona® Galvanised (pages 24-25)

We have developed a range of truly unique, stunning and "on trend" finishes; Antique Copper, Antique Brass & Satin Nickel. Individual sections of Ancona® are hand polished then using a galvanising process (similar to chroming) the finish is created. 5 stages in total are needed to complete the look with a final hand brushing and protective lacquer. The result, is distinctive and hardwearing, with each radiator unique and individual. Please note: galvanised Ancona's are available with welded feet only.

See pages 144-145 for full range of sizes.

Ancona® Bench Seat (p 26-27) NEW

A practical solution providing both seating and heating, perfect for boot rooms, utility rooms and conservatories. The Ancona bench seat comes supplied with a solid wooden top. **See pages 146-147 for full range of sizes.**

Ancona® Curved (page 28)

Fitting a curved Ancona into your bay window or around a curved wall will give truly bespoke finish to a room. All come with welded feet as standard & are available in 188 RAL colours & 32 Special Finishes. Use our **curved radiator builder online** or download the easy to follow Specification Instructions on our website www.theradiatorcompany.co.uk

Ancona® Electric (page 29) NEW

Our new range of fully electric Ancona sizes provide the option to place your radiator in spaces where it is not possible or convenient to connect to the normal heating system. Available one height (600mm) there are 7 sizes available with widths from 384mm – 1329mm offering outputs from 400 to 2000 watts. These radiators are filled with an oil/glycol mix and are IP24 rated. **See page 149 for full range of sizes**

® Ancona is a registered trademark of IRSAP UK Limited

Ancona® stock radiators are incredibly versatile with literally hundreds of possible sizes in 2, 3 or 4 columns from 3-40 sections, in a choice of 3 mounting options (slip on welded feet, cast feet or 2 types of wall brackets) all available from stock.

Please visit our sectional radiator builder online www.theradiatorcompany.co.uk.

Contemporary Designer stock & made to order

Our contemporary designer range contains models that can be used throughout the home. Developed to reflect the latest trends in design these radiators will complement any interior scheme. The wide selection of sizes, formats and colour options allows you to select the perfect radiator to suit your heat output requirements, space and interior.

Knowing the heat output required (BTU/Watts) to heat your room is key when choosing your radiator. For help on calculating this and selecting the correct size of your chosen radiator please visit our website www.theradiatorcompany.co.uk.

All Stocked Designer Radiators are now delivered in 48-72 hours.

Design

Prices from £285.00

As Italy's leading manufacturer with over 50 years experience of innovative design we offer the widest choice of stylish high quality radiators with guarantees ranging from 5 to 20 years.

Choice

Aluminium

New for this edition we have 3 exciting new ranges, the Iseo, Niro and Canto. All with the efficient features of aluminium and available in a range of sizes and colours for quick delivery. Plus we have the Odolo taking it's inspiration from traditional designs, the soft curves deliver a classic style.

Our Low Water Content radiators are designed for improved efficiency which contribute to reduced running costs while delivering great output. For Low Water Content radiators look out for this symbol in the technical section.

Contemporary Designer stock & made to order

Choice

- **25 RAL and 32 special finishes available in up to 3 weeks.**

Design

Prices from £188.00

Energy Efficient & Made from Recycled Materials

Low water content

- An aluminium radiator will heat up in just over half the time of a steel radiator and uses 50% less water saving money by using less fuel therefore it is the most energy efficient radiator.
- As aluminium radiators are a third lighter than steel radiators, it means they are extremely light and easy to install on any type of wall.
- Aluminium radiators are excellent heat conductors; our products have high thermal efficiency and contain a lower amount of water, therefore heat up faster than those produced with other materials. They are therefore easier to control and cost much less to run

With modern building methods and regulations requiring more insulation and higher U values for windows, having a more efficient heating system that can react quickly to changes in temperature and that can produce enough heat from smaller heat emitters means a more comfortable living environment and cheaper utility bills.

All our Sectional Aluminium radiators are made in Italy and are available in 5 different profiles.

Traditional Cast Iron stock & made to order

The epitome of traditional heating, cast iron radiators are a must for any period restoration; suitable for living rooms, bedrooms, kitchens, hallways and dining rooms. Our choice of six classic designs offer the clean simplicity of "column" or the "decorative classic". These radiators will be a perfect match for any existing radiators and being new, they come with a ten year guarantee.

Design

Prices from £132.00

As a material, cast iron has its own unique properties; these radiators will hold their heat for a long time, compared to a similar steel model, although they are slower to heat up and therefore less responsive to sudden changes in temperature.

Column

Probably the most well known form of cast iron radiators, the original imported column models bring a real charm and character to any period property.

Telford

Decorative Classic

The original detailed, ornate designs of the Trieste with its tasteful scroll work and decorative ears brings a touch of splendour to your home. Our Linton range reflects the style of the 1920's, with smooth clean lines and a choice of exclusive galvanised and painted finishes.

Linton

Trieste

Choice

Sectional

Our sectional cast iron range is incredibly versatile with literally hundreds of possible sizes from a wide range of column depths & heights finished to your size. Use our **online radiator builder** to select the best solution for your room www.theradiatorcompany.co.uk.

Mounting Options

Cast iron radiators are very heavy and therefore best mounted with floor supports. All of our ranges are available with Footed Ends as standard. The Telford has selected sizes without footed ends which can be sold with optional Cast Feet.

Footed End Sections

Cast Foot for Telford

Solid Brass Wall Ties & Airvents

Available to buy with all of our cast iron radiators, see page 191 for details

Service

All stocked cast iron lines are listed in bold in the technical section, primer finish delivered in 48-72 hours.

Use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

Our range of valves include the classically styled Vintage TRV, Vintage XL TRV as well as the Black & Brass TRVs.

SAVE UP TO £36

WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY CAST IRON ORDER* QUOTE **PROMOV2** AT TIME OF ORDER (Chrome only, please see product pages in the back of the brochure for full details)

*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator.

Cast Iron Finishes

Our range of Cast Iron radiators are available in a wide choice of finishes. We offer a choice of colour ranges and levels of finishing for you to select from. Please note; that as a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.

RAL Colours

A range of 26 of the most popular colours from the RAL range. We use a robust, polyester powder coat paint, which is applied by our specialist UK based painters, to achieve a long lasting, durable finish. Visit page 215 for full list of RAL colours and please call **01342 302250** for a RAL chart.

Please Note; delivery lead times on coloured cast iron start from when we have receipt of your chosen RAL colour number / special finish in writing; please ensure the selected RAL colour number / special finish and name is included on your order.

Primer finish

Our standard finish is primer, which requires finishing to prevent rust forming. If carried out by hand this can be a long and difficult process as cast iron is very heavy and the entire surface must be covered with an appropriate undercoat and top coats for full protection.

Mottled Bronze Gun Metal Grey Textured Stone Mottled Copper

Special Finishes

We can also overpaint your cast iron radiator (the Linton has its own exclusive range and not available to Aston & Uxbridge) in any of the special finishes in our Special finish chart including: metallics, mottled & textured effects (excludes Mottled White Gold). For a Special Finish chart please call our Customer Service team on **01342 302250**.

Farrow & Ball®

Premium paint manufacturer Farrow & Ball® is known for its range of exclusive colours, now those colours can be applied to a selection of our cast iron Ranges. Using Farrow and Ball Estate eggshell rather than an inferior matched product, we can now provide the perfect match to your interior paint scheme. For full details see pages 84-85

© Registered trademark of Farrow & Ball Holdings Limited

Aston Polished

Trieste Burnished

Polished & Burnished

Our cast iron ranges are available in a beautiful, burnished or high lustre, polished finish. Created by hand in the UK, an initial black paint is used to protect hidden, hard to access areas of the radiator and to highlight the visible polished areas (the front, sides & tops of the sections are polished whilst the rear & more difficult to access areas between the sections remain black); a series of burnishing & polishing processes produces the final stunning results.

Linton Special & Galvanised Finishes

The Linton is a classic smooth design, available in our 26 RAL colours (selected sizes are also available in Farrow and Ball® colours, see pages 84-85/195) and 4 special finishes, exclusive to the range galvanised finish, polished and burnished (shown on page 192).

Flat Black Slate Grey Galvanised Copper Soft Gold

Please note, due to the printing process, these colours may not be representative of the true finished colour. For a Linton colour chart please call 01342 302250.

Towel Rails stock and made to order

With space often at a premium, a towel rail functions as both a heat source and as a towel warmer; perfect for bathrooms, kitchens and cloakrooms

Look out for our stocked Towel Rails delivered in 48-72 hours.

Design

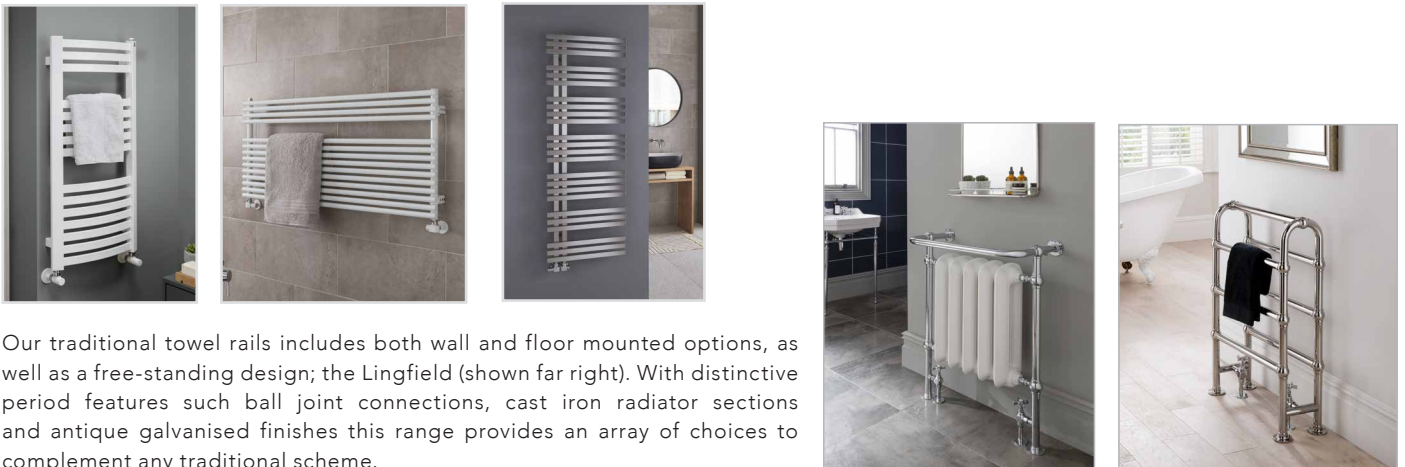

Prices from £117.00

As Italy's leading manufacturer with over 50 years experience we offer the widest choice of stylish high quality towel rails with guarantees ranging from 5 to 20 years.

Choice

An extensive choice of styles from standard vertical formats to horizontal and side loading towel rails. We offer a wide variety of tube styles including round, flat, oval and rectangular in a range of materials; mild steel, stainless steel and brass for the more traditional style.

Our traditional towel rails includes both wall and floor mounted options, as well as a free-standing design; the Lingfield (shown far right). With distinctive period features such ball joint connections, cast iron radiator sections and antique galvanised finishes this range provides an array of choices to complement any traditional scheme.

Service

Look out for our Towel Rails which now have **stock lines available for delivery in 48-72 hours**; all stock lines are shown in bold in a separate 'stock' table in the technical section.

Painted Valves

You have the option to fully coordinate your towel rail colour with your valves and pipe covers to create a unique and individual statement. Picture right shows a Lupin ladder rail in RAL 7011 with matching Cylinder valves and pipe covers and shrouds. See page 117 for full details.

SAVE WHEN YOU BUY OUR **CYLINDER VALVE KIT** WITH ANY TOWEL RAIL ORDER*. PLEASE QUOTE **PROMOV3** AT **£40** TIME OF ORDER (White or Chrome only, see product pages in the back of the brochure for full details)

*Saving based on the value of individual items when bought separately.
Order any of our selected valves & matching pipe covers at the same time as your radiator; PROMOV3W (white), PROMOV3C (chrome).

Towel Rails stock and made to order

Electric and Dual Fuel Towel Rails

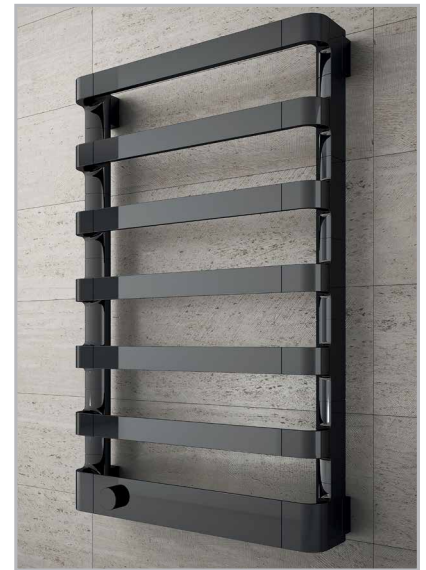

Electric

Fully electric self contained units that are powered by mains electricity, they can be supplied with a variety of elements, some that have complete temperature and timing options built in, some that are basic on off options that can be controlled by an additional control panel. These standalone towel rails allow you to install a towel rail with out the need for any new pipe work and they can be used independently of your heating system.

Purple 'electric' symbol denotes which towel rails have fully electric models.

Dual Fuel

Most towel rails are installed as part of a standard central heating system, but this means they will be cold when the heating is turned off in summer. With a dual fuel option, you can have the best of both worlds. Using a special valve connection, you can add an electric element to your towel rail that allows you to warm your towels in summer when the heating is turned off.

Towel rails that can be converted will have this blue dual fuel symbol on their respective pages

Please turn to pages 114-115 for more detailed information and prices.

Standard manual valve with no electric element

Dual Fuel Valve

Valve & additional T-piece

Finishes

Popular stock sizes in White RAL 9016 or Chrome are available for delivery in 48-72 hours

188 RAL Colours

Match your bathroom kitchen or cloakroom style by selecting from a full rainbow of 188 RAL colours. Use either contrasting colours to create a bold statement or sympathetic colours so your Towel Rail blends in to your wall. For a RAL chart please call **01342 302250**.

32 Special Finishes

Heating Elements & Dual Fuel Kits

All available from stock and delivered in 48-72 hours.

Heating elements are used as a heat source in electric radiators, towel rails and dual fuel towel rails. You can easily install your radiator or towel rail as dual fuel by connecting it to your central heating system along with a heating element, meaning you are able to run your product as electric in the summer months.

All towel rails that can be converted to dual fuel will have a dual fuel symbol in the technical section

Follow these simple stages to select the correct Dual Fuel Kit for your towel rail.

1. Valve Configurations

All radiators will require a valve, select either a T-piece or a Dual Fuel valve to suit your installation.

2. Types of Element

There are four types of electric element to choose from (see below and opposite) .

3. How to choose your Element

It is important to select the correct size element for your towel rail. Too small and it will not provide enough heat, too large and it can burn out. The chart above right that shows the towel rail output in watts and the corresponding recommended size of element.

Towel Rail output range in Watts	Electric Elements
165 - 255	200w
260 - 375	300w
380 - 530	400w
535 - 735	600w
740 - 920	800w
920 - 1100	1000w

Round Bluetooth Element Bluetooth®

- 5 heat settings from 30° to 60° regulating the internal radiator temperature, denoted by 5 LED's
- Full operational control of the element on smartphone / tablet via Bluetooth (with "Terma BLUE-Line" App: iOS / Android
- Provides a choice of internal temperature (30° to 60°) or ambient room temperature (15° to 30°) regulation.
- 7 day timer. 2 hour drying function
- Lot20 EcoDesign Directive compliant*
- Guarantee - 2 years
- Delivered in 48-72 hours

Valves

Every Radiator needs a pair of valves to operate. A good quality valve not only benefits efficient performance they also add to the appearance of your finished radiator. All our valves have a 5 year warranty and delivered within 48-72 hours.

Wheelhead and Lockshield;

Every Radiator requires a pair of valves which work together, the Wheelhead adjusts the flow of water into the radiator and the Lockshield balances the flow of water around the whole system, ensuring each radiator heats up at the same rate, these should be adjusted by your installer.

TRV or Manual?

Thermostatic Radiator Valves (TRVs) monitor the room temperature. They usually have between 4 to 6 levels and the valve opens and closes automatically to reach and maintain the desired level. TRVs can help maximise the efficiency of your system reducing energy consumption and are now a requirement as part of building regulations relating to new builds and refurbishments.

Manual valves are adjusted by hand; they allow a constant flow of water through your radiator regardless of the room temperature and radiators will only turn off when the main thermostat reaches it's set point or the programmer turns the heating off.

Angled, Corner or Straight?

Pipe work and Pipe centres;

All our valves have 15mm connections as standard unless otherwise stated; if you need different connections please specify when ordering your valves. The use of plastic pipe has become more popular; however, our valves are not designed to operate with plastic pipes. Also, if chrome pipe work is used most valves will not grip it securely because chrome is a harder surface than copper or iron and leaks can occur. Special fittings are required to enable valves to grip chrome pipe work and these must be specified at time of order. The position of the pipe work for your radiator will be affected by the valves you select. All angled valves have a dimension to allow for adjusting pipe work. You should make adequate allowances for manufacturing tolerances in pipe centres.

For straight valves, a minimum of 150mm should be allowed from the base of the radiator for ease of installation.

Please note: We will always supply angled valves as standard, if you require straight please specify at time of order. We endeavour to ensure all pipe centres are correct, however manufacturing tolerances must be considered; we strongly recommend that pipe work is not altered or adjusted until the new radiator or towel rail is fitted. The Radiator Company will not accept any responsibility for claims resulting from incorrect pipe centres.

Vintage TRV special corner valves

Vintage TRV valves are available in a selection of handed return angled valve options. Return angled valves are left and right handed, you can select the correct option by identifying which side of the radiator has the flow connection; e.g flow connection on the left side requires a left hand wheelhead and matching lockshield.

Please specify left or right hand return for the wheelhead when ordering the return angled valves, Chrome is available from stock in 48-72 hours, delivery is 5 weeks for all other finishes. Please call 01342 302250 for more information.

Pipe Covers & Shrouds

Available in 7 set colours; White, Chrome, Antique Copper, Nickel, Polished Brass, Antique Brass & Black.

Pipe covers and shrouds are the perfect method of creating a neat finish for your radiator, they remove the need to paint copper pipes and hide unsightly holes drilled in the floor or wall for the feed pipe.

Available in 7 standard finishes they can be delivered in 48-72 hours.

Each set is supplied with two 160mm covers and two shrouds.

@Marc_Radiators

You are what you heat

It is the LAW that radiators and convectors installed in heating systems in UK buildings conform to the **European Standard BS-EN442**.

Products that conform will have a **CE** mark.

The Manufacturers Association of Radiators and Convectors, MARC, are launching a campaign; 'You are what you Heat' to ensure that consumers are aware of the importance of having quality, CE marked radiators installed in their home. Installing radiators that do not conform to CE marking could result in cold, expensive and inefficient homes.

For more information visit www.marcuk.com

MARC members' products, 'do what it says on the box'!

Add to Wish list

- 1 Calculate the heat output you need for your room, using our **online Heat Output Calculator** or check with your installer, remember you may need more than one radiator to heat your room.
- 2 Use the tables on pages 130-137 to find the best size to suit your space and heat output you need; if you cannot get the right size and output combination from a 2 column radiator try an alternative height or column (depth) option.
- 3 Choose the style of mounting option you want; for Ancona stock white & Feature Finishes standard wall brackets are included in the radiator price, for Bare Metal Lacquer Ancona stock universal wall brackets only are included in the price
- 4 If selecting cast feet or slip on welded feet there is an additional cost, see right for cast feet and slip on welded feet kits and page 137 for bare metal lacquer slip on welded feet pricing tables.

If you need an alternative size, there are thousands of other sizes we can Make to Order from the full Ancona range which can be found on pages 140-145

Mounting Options for Ancona Stock in White & Feature Finishes, (Bare Metal Lacquer mounting options can be found on page 137)

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets are included in the radiator price. Cast feet and slip on welded feet are an additional cost, see pricing tables below.

We will supply the correct number of brackets and wall ties with each order; prices for extra brackets / feet and wall ties are available on request, please call **01342 302250**.

Note: Ancona's over 40 sections will incur a £35 joining charge please see bottom of this page for more information

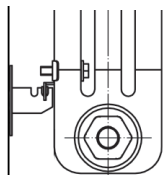

Please specify your preferred mounting at time of order (remember cast feet and slip on welded feet are not included in the radiator price)

Note: Ancona's must be a minimum of 100mm from the floor for all mounting options

Wall mounting options included in radiator price

Standard wall brackets

Supplied as standard with every Ancona order unless an alternative is specified.

Pipe centres from wall:
 2 column = 64mm - 74mm
 3 column = 82mm - 92mm
 4 column = 102mm - 112mm

Copper

Graphex

Pearl Bronze

Please call **01342 302250** for sample swatches

Mounting Options for stock sizes

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets are included in the radiator price.

Floor Mounting options

Cast feet and slip on welded feet are an additional cost, see pricing tables below.

We will supply the correct number of brackets and wall ties with each order; prices for extra brackets / feet and wall ties are available on request, please call 01342 302250.

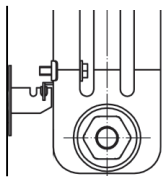

Ancona's must be a minimum of 100mm from the floor for all mounting options

Note: Ancona's over 40 sections will incur a £35 joining charge please see bottom of page 129 for more information

Wall mounting options included in radiator price

Standard wall brackets

These will always be supplied with every Ancona order unless an alternative is specified at time of order

Pipe centres from wall:
2 column = 64mm - 74mm
3 column = 82mm - 92mm
4 column = 102mm - 112mm

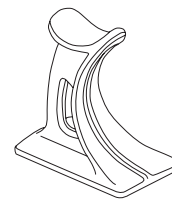

Wall ties

adjust from 32 to 42mm

Optional Cast feet kit prices (includes wall ties)

Mounting Options for stock sizes

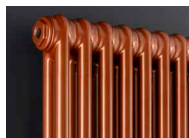

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets are included in the radiator price see pages 131 for technical drawings and pipe centres.

Floor Mounting options

Optional Cast feet & slip on welded feet are an additional cost, see pricing tables & technical drawings on pages 131/ 133.

Feature Finishes

Copper; A bright finish with red and gold tones Copper is a very popular finish.

Pearl Bronze; A deep lustrous finish, the combination of darker and light tones creates a patina effect and an aged look.

Graphex; this earthy near black/anthracite finish pairs well with many colour schemes, providing a sophisticated tone and nuance.

Please call **01342 302250** for sample swatches

© Ancona is a registered trademark of IRSAP UK Limited

*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

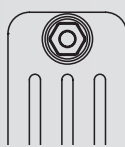

Ancona® 4 Column on pages 11-13 NEW COLOURS

High quality Italian design & manufacture.
Steel multi column 45mm sections.
CE approved & certified to BS EN442

White RAL 9016 as standard,
Feature Finishes: Copper, Graphex & Pearl Bronze
(Please call **01342 302250** for sample swatches)

Stock White RAL 9016: 48-72 Hours
Feature Finishes: Up to 3 weeks

139mm

SAVE UP TO £36 WHEN YOU BUY OUR **VINTAGE TRV KIT** WITH ANY ANCONA® ORDER*
QUOTING **PROMOV2** AT TIME OF ORDER
Chrome only

All prices include wall brackets (floor mounting options shown on page 133)
The radiators width shown below includes bushes.
Pipe centres left to right = width + valves.

Mounting Options for stock sizes

Once you have chosen your radiator size simply choose your preferred mounting option; standard wall brackets are included in the radiator price see pages 131 for technical drawings and pipe centres.

Floor Mounting options; optional Cast feet and slip on welded feet are an additional cost, see pricing tables and technical drawings on pages 131.

NEW COLOURS Feature Finishes

Copper; A bright finish with red and gold tones Copper is a very popular finish.

Pearl Bronze; A deep lustrous finish, the combination of darker and light tones creates a patina effect and an aged look.

Graphex; this earthy near black/antracite finish pairs well with many colour schemes, providing a sophisticated tone and nuance.

Please call **01342 302250** for sample swatches

*Saving based on the value of individual items when bought separately.
Order any of our selected valves and matching pipe covers at the same time as your radiator.

Ancona® Bare Metal Lacquer pages 14-15

High quality Italian design & manufacture.
Steel multi column (2, 3 and 4 column options)
45mm sections.
CE approved & certified to BS EN442

Sections are 45mm wide

Bare Metal Lacquer

Bare Metal Lacquer: 48-72 Hours

SAVE UP TO £79 WHEN YOU BUY OUR NICKEL VINTAGE TRV KIT WITH ANY ANCONA ORDER* PLEASE QUOTE PROMOV2 AT TIME OF ORDER

All prices include universal wall brackets (optional slip on feet shown page 137).
The radiators widths include bushes.
Pipe centres left to right = width + valves.

This finish highlights the raw basic steel product showcasing the manufacturing marks created by the processes of welding and sanding to deliver an industrial look. Each radiator will be unique, with the random position of the weld lines on the column tubes and the level of the final sanding. The clear lacquer allows these characteristics to be the hero and maintains the natural steel finish. Please see page 137 (right) for examples of weld lines and sanding marking.

Each radiator will be unique, with the random position of the weld lines on the column tubes and the level of the final sanding.

The clear lacquer allows these characteristics to be the hero and maintains the natural steel finish.

Black weld lines

Sanding marking

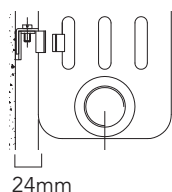

Once you have chosen your radiator size simply choose your preferred mounting option (below).

Universal wall brackets are included in your radiator price.

Slip on welded feet are an additional cost, please see kit prices below. Please specify slip on welded feet at time of order (fittings are available to order with a corresponding radiator only). The correct number of wall brackets are supplied with each order; prices for extra wall brackets are available on request, please call 01342 302250.

Universal wall brackets (included in radiator price)

Supplied as standard with all lacquer stock Ancona's®

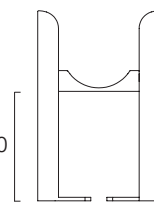

Pipe centres from wall:
 2 column = 56mm
 3 column = 74mm
 4 column = 93mm

Optional Slip on welded feet kits

Pipe centres from wall: 2 column = 56mm, 3 column = 74mm, 4 column = 93mm

*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

Ancona® Made to Order shown on pages 16-25

High quality Italian design & manufacture.
Steel multi column 45mm sections, 2-6 column options
CE approved & certified to BS EN442

White RAL 9016 as standard, 188 RAL colours and 36 Special Finishes
Please call **01342 302250** for a RAL or Special Finish chart

Made to Order: Up to 4 weeks White & Colours
Up to 6 weeks Bare Metal Lacquer,
Up to 7 weeks Galvanised

SAVE UP TO £36 WHEN YOU BUY OUR VINTAGE TRV KIT WITH ANY ANCONA® ORDER* QUOTING **PROMOV2** AT TIME OF ORDER
Chrome only

Create a radiator that matches your exact requirements with thousands of sizes, plus a choice of 188 RAL colours and 36 special finishes available including bare metal lacquer and galvanised finishes.

Choose your radiator using our online radiator builder

Once you know your outputs use our online radiator builder to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

It is vital to know the correct heat output you need to keep your room warm, use our online heat output calculator to get a guide to your requirements which you can then check with your installer.

The screenshot shows the 'Ancona Made to Order' online radiator builder interface. At the top, there are icons for 2 Column, 3 Column, 4 Column, 5 Column, and 6 Column options. The main selection area includes dropdown menus for:

- 3 Column (101mm)
- 600mm
- 12 Sections (564mm) BTU's: 2460
- Cast Feet
- Special finish
- Mottled Copper
- Vintage TRV
- Angled
- Antique copper (stocked)

 On the right side, there is a 'Product Details' section with the following information:

- Height: 600mm
- Width: 12 Sections (564mm) BTU's: 2460
- Columns: 3 Column (101mm)
- Finish: Special Finish - Mottled Copper
- Mounting Options: Cast Feet
- BTU's: 2460
- Watts: 720
- Product Code: ANCO360X12
- Radiator: ANCO360X12
- Mounting: PRANCOCKIT2SF
- Valves: Vintage TRV - AN
- Product Description: Ancona 6003 Column Special Finish (Mottled Copper) x 12 Sections, Ancona Cast Feet Special Finish, Vintage TRV Angled Antique copper (stocked)

 An 'Add to Wish list' button is located at the bottom right of the interface.

Once you know your outputs you can use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

- Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth
- Select a column option and height that fits your space; Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 4142 BTUs divided by 205 = 20 sections, based on 3 column, 600mm high sections (always round up to the next whole number of sections)
- If using that section size doesn't work in the space available, try a different column option or if possible a different height
- Once you have calculated the best number and size of section, select the best mounting option. Wall hung options (standard wall brackets) are included in your radiator price. Cast feet or welded feet are an additional cost, see kit prices on page 143. Choose your colour from over 200 colours and special finishes; white RAL 9016 or 9010 are our standard finishes
- Work out the price of your radiator; e.g 3 column 600mm high, white, 20 x £27.64 = £552.80 + welded feet kit price £105.60 = £658.40 (inc VAT)
- Place your order with your local Merchant using the Sectional Model Code x No. of Sections needed, noting the Mounting Option and the name and number of colour you have chosen; e.g ANCO360W x 19 sections, RAL 9016 Traffic white, with welded feet.
- If you have chosen a colour use the colour reference 'R' instead of 'W' and list the colour number and name

All prices and outputs are given per section in the tables on pages 140-141. Price per section includes plugs, bushes and diverter. Mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

Ancona® Made to order Colours & Special Finishes

The Ancona® made to order range is available in White RAL 9016 as standard (as an alternative the RAL colour 9010 Pure White can be specified at the standard white price). They can also be ordered in one of the 188 RAL colours or any of the non galvanised special finishes including Gun Metal Grey, Textured White and Ivory, Mottled, Bronze, Metallic and Gold finishes. Call 01342 302250 for a RAL or special finish chart.

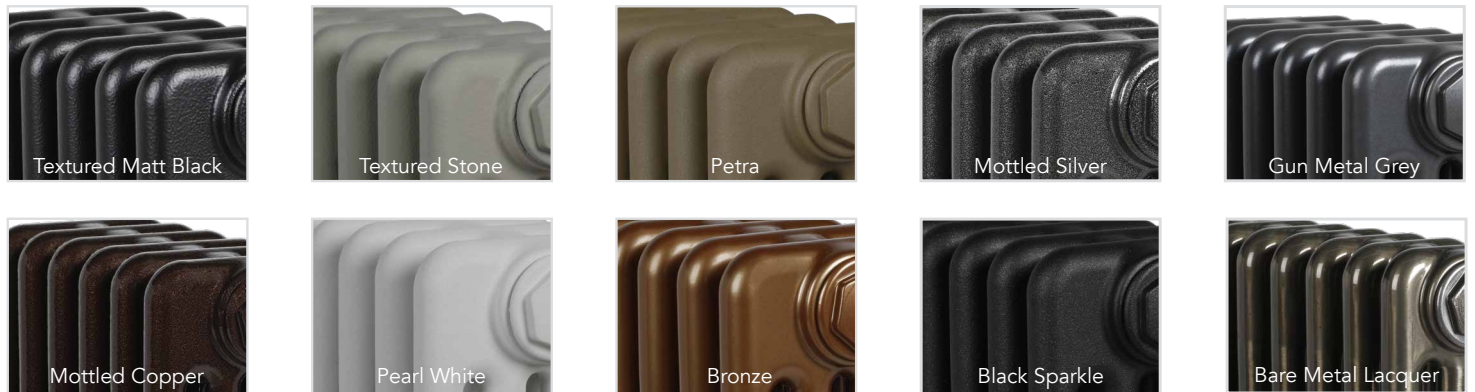

RAL Colours

Match your room style by selecting from a full rainbow of 188 RAL colours. Use either contrasting colours to create a bold statement or sympathetic colours so your Ancona® blends in to your wall.

Special Finishes & Bare Metal Lacquer

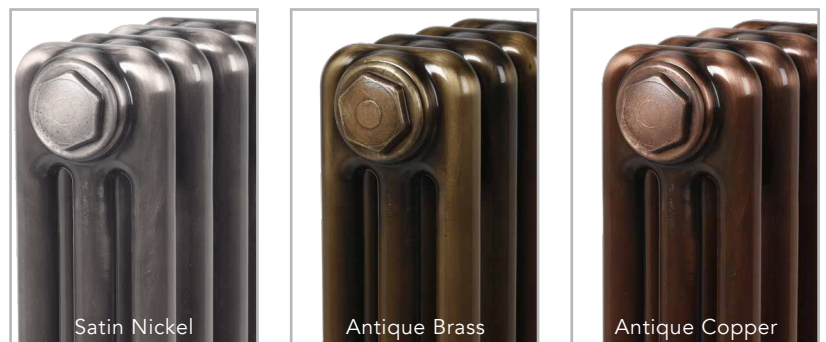

Choose from colours including metallics, mottled, textured effects as well as a bare metal lacquer, for a Special Finish chart please call our Customer Service team on 01342 302250.

Please specify your chosen RAL number and colour or special finish at time of order.

Galvanised Finishes

We have developed a range of truly unique, stunning and "on trend" finishes in classic Antique Copper, Antique Brass and a more contemporary Satin Nickel. We take individual sections of Ancona®, hand polish every part of the section, then using the hot dip galvanising process (similar to chroming) we create the finish. 5 stages in total are needed with a final hand brushing and lacquer. The result, is distinctive and hardwearing, with each radiator completely unique due to the amount of hand finishing.

Please note: galvanised Ancona's are available with welded feet only in set sizes, see pages 144-145

Helpful notes & advice;

Please call us on 01342 302250 if you need any further information or help with specifying your Ancona®.

Ancona® sections are 45mm wide, therefore the total radiator length is; "no. of Sections x 45mm + 24mm for bushes + valves"

When considering the height of your radiator remember that your mounting option will affect the overall height of your radiator. Made To Order Anconas® are supplied factory assembled up to a maximum of 40 sections. For radiators outside these parameters there is an additional joining charge please consult Customer Services to discuss alternative requirements.

® Ancona is a registered trademark of IRSAP UK Limited

Ancona[®] Made to Order shown on pages 16-25

Specify your radiator on line; Use our **Online Radiator Builder** to quickly and easily specify your radiator.

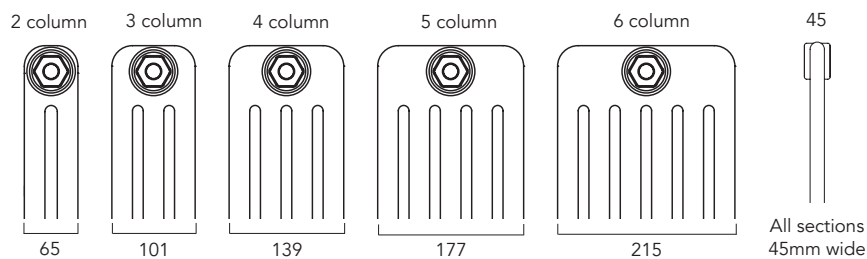

Go to our website www.theradiatorcompany.co.uk.

Use these tables to specify your radiator by following these steps;

- 1 Calculate the heat output you need for your room, using our online **Heat Output Calculator** or check with your installer, remember you may need more than one radiator to heat your room.
- 2 Use the tables below and right to find the best size to suit your space and heat output you need; if you cannot get the right size and output combination from a 2 column radiator try an alternative height or column (depth) option, see page 138 for more details on how to size your radiator.
- 3 Choose the style of mounting option you want; standard wall brackets are included in the radiator price (universal wall brackets for lacquer finishes). If selecting cast feet or welded feet there is an additional cost, see pricing tables on page 143.
- 4 Choose your colour from a choice of 188 RAL colours and 33 special finishes including bare metal lacquer. For galvanised finishes please see pages 144-145.

All prices and outputs are given per section in the tables below. Price per section includes plugs, bushes, diverter, wall brackets and wall ties. Alternative mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

Made To Order Anconas[®] are supplied factory assembled up to a maximum of 40 sections. For radiators outside these parameters there is an additional joining charge please consult Customer Services to discuss alternative requirements.

Pipe Centres for all White & Colour Anconas with Cast Feet, Welded Feet or Wall Brackets are;	
Pipe centres left to right = number of sections x 45mm plus 24mm (12mm each) for bushes plus valves.	
Pipe centres from wall (based on adjustable wall ties)	2 Column = 64mm to 74mm 3 Column = 82mm to 92mm 4 Column = 102mm to 112mm 5 Column = 120mm to 130mm 6 Column = 140mm to 150mm

® Ancona is a registered trademark of IRSAP UK Limited

*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

Ancona[®] Made to Order - Wall Brackets

Once you have chosen your radiator size you can choose any one of our 3 mounting options & specify at time of order (fittings are available to order with a corresponding radiator only).

Included in your radiator price you have standard wall brackets. The correct number of brackets and wall ties will be supplied with each order; prices for extra wall brackets and wall ties are available on request, please call **01342 302250**.

Technical & pipe centre information of each mounting option is shown below / right.

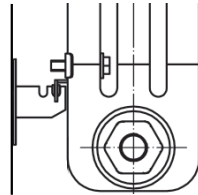

Please note: Anconas[®] in a bare metal lacquer finish are only available to be mounted with universal wall brackets or welded feet.

*PPANCOWNB

Standard wall brackets technical & pipe centre information (suitable for stud walls) (appropriate for all finishes except Bare Metal Lacquer)

Can be positioned at any height (minimum height from floor 100mm); brackets are supplied with raw plugs.

Pipe centres from wall:

- 2 column = 64mm - 74mm
- 3 column = 82mm - 92mm
- 4 column = 102mm - 112mm
- 5 column = 120mm - 130mm
- 6 column = 140mm - 150mm

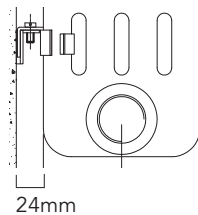

Wall tie; adjusts from 32 to 42mm

*PPANCOWNB

Bare metal lacquer universal wall brackets (suitable for stud walls)

Note: Ancona's with lacquer wall brackets can be positioned at any height (minimum 100mm from floor)

Pipe centres from wall:

- 2 column = 56mm
- 3 column = 74mm
- 4 column = 93mm
- 5 column = 112mm
- 6 column = 131mm

Build your radiator using our online radiator builder

It is vital to know the correct heat output you need to keep your room warm, use our **online heat output calculator** to get a guide to your requirements which you can then check with your installer.

Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List.

Please go to our website www.theradiatorcompany.co.uk

Ancona Made to Order

Build the perfect radiator

Use our Radiator Builder to achieve your output requirements in the space you have available. To create your perfect radiator simply select the height and the width you need to achieve your desired output.

Then choose your [colour](#) and valves (we have shortlisted a selection of our most popular thermostatic valves which you can see [here](#)). You can then save your radiator to your wish list for future reference.

To complete your radiator, see our range of accessories; including pipe covers and shrouds, towel rails, pegs and hooks [here](#).

Please Note:

When selecting your mounting option be aware that the overall height will be affected. Please remember to add one of the following to your radiator height:

- Welded Feet: +97mm
- Cast Feet: +100mm

Ancona® Made to Order - Floor Mounting Options

Once you have chosen your radiator size you can choose to have your Ancona® floor mounted by selecting either Welded or Cast feet (fittings are available to order with a corresponding radiator only).

Please note; Welded feet and Cast Feet are an additional cost to your radiator price.

The correct number of wall ties will be supplied with each order; prices for extra cast feet and wall ties are available on request, please call **01342 302250**.

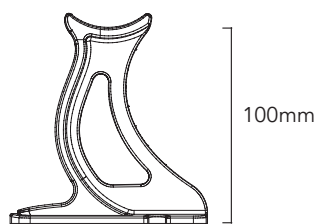

Please specify your preferred floor mounting option & kit number at time of order.

Technical & pipe centre information of each mounting option is shown below.

Cast feet kit prices

Note: please remember to add 100mm to the height of the Ancona® section you have chosen if you are using cast feet.

Our Ancona® radiators can be curved to fit bay windows and around columns.

Alternative heights are available on request, please contact us on **01342 302250** if required. Radiators can be curved using up to 40 sections, minimum 10 sections (450mm).

As with all radiators it is essential to know how much heat you need to keep your room comfortable, use our online Heat Output Calculator to work out how much heat you will need for your room before you size your radiator.

Curving is a precise process and as such accurate measurements and calculations must be made and checked before production can begin. Since our Ancona® Curved is made on a bespoke basis to your exact requirements we have created an online tool to help make the process as easy as possible;

To order your curved radiator follow these simple steps;

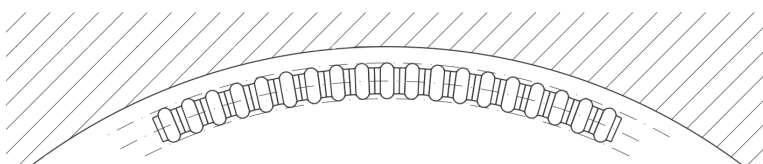

- 1 Go to our website www.theradiatorcompany.co.uk and select the 'Curved Ancona®' in the steel multi column section, download or read the specification document which explains how to measure for your curved radiator
- 2 Use our online Curved Radiator Builder by filling in all the sections
- 3 When you have reviewed the technical specification, double check everything is correct to see how your radiator will fit in your space
- 4 Print the technical specification and sign all pages once you are happy with the details
- 5 Use the signed specification to place your order with your Installer or local merchant

Alternatively, you can complete the Specification Instruction sheet with the dimensions of your bay or column and return it to us via email, fax or post (please see contact details below). However, this will take extra time for us to have drawings made and then sent to you for approval before any order can be placed. **Please note; once you have signed off your drawings and ordered your curved radiator it may not be cancelled or returned.**

Ancona® Electric shown on page 29 NEW

High quality Italian design & manufacture
 Steel Multi Column 3 column with wall brackets only
 CE approved, Eco Design
 10 year guarantee on the radiator
 2 year guarantee on the element

White RAL 9016

Made to Order: Up to 5 weeks

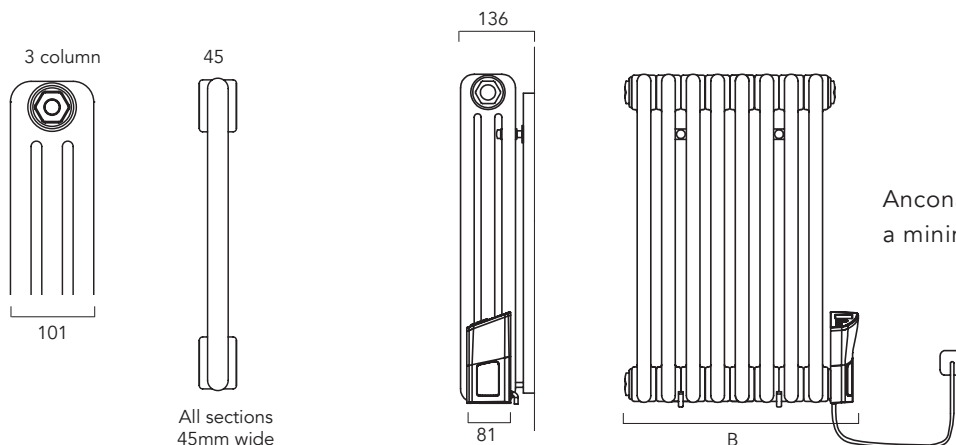

The Ancona electric ranges combine the classic Ancona design with the flexibility of a fully controllable electric element. Offering 8 function modes, the Ancona Electric can be set to operate when you wish, on a daily basis or you can select one of the three pre-set programmes. The Open Window function detects an open external door or window and will turn the radiator off if it which is allowing heat to escape so saving energy and money.

Sectional Stocked Aluminium

All our sectional aluminium is held in stock in the UK. White product can be delivered in 48-72 hours and coloured orders will be finished and delivered in up to 3 weeks. Our most popular sizes are listed in the price tables for other sizes use our online radiator builder or follow the instructions below to specify your radiator.

Choose your radiator using our online radiator builder

Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

It is vital to know the correct heat output you need to keep your room warm, use our online Heat Output Calculator to get a guide to your requirements which you can then check with your installer.

The screenshot shows the online radiator builder interface. On the left, there are dropdown menus for 'Vip', '590mm', '12 Sections (980mm) BTU's: 5040', 'White', 'End Panels', 'Ideal TRV', and 'Angled'. The 'White (stocked)' option is selected in the bottom dropdown. On the right, there is a 'Product Details' section with the following information: Height: 590mm, Width: 12 Sections (980mm) BTU's: 5040, Finish: White, Accessories: End Panels, BTU's: 5040, Watt's: 1476. Below this is the 'Product Code' section: Radiator: VIP59X12, Valves: Ideal TRV - AN, End Panels: VIPEP44W. The 'Product Description' section lists: Vip 590 White x 12 Sections, Ideal TRV Angled White (stocked), Vip End Panels White. At the bottom right, there is an 'Add to Wish list' button.

Once you know your outputs you can also use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth

- Select a column option and height that fits your space; Calculate the number of Sections you need by dividing the required BTU (Watt) output with the output per section; e.g $4811 \text{ BTUs divided by } 420 = 11.45$, (we always suggest rounding up, as it is better to have too much output, than too little) therefore 12 sections based on Vip 590
- If using that section size does work in the space available, try a different height or alternative aluminium profile
- Once you have calculated the best number and size of section, select your colour. Our Aluminium Radiators are available in a selection of the top 25 most popular colours from the RAL range and 32 special finishes (shown on pages 59 & 215). Please specify your RAL colour or special finish at time of order. White RAL 9010 is our standard for the Vip, Oscar, Vox and Mix, RAL 9016 for the Ottimo.
- Work out the price of your radiator by multiplying the section price by the total number of sections e.g Vip 590 high, 12 sections in RAL 3000 - Flame Red = $\text{£}58.64 \times 12 = \text{£}703.68$ (inc VAT)
- Place your order by using the Sectional Model Code x No. of Sections needed and noting the colour number and name selected; e.g VIP59 X 12 in RAL 3000
- If you have chosen a colour make sure you list the colour number and name

All prices and outputs are given per section in the tables on pages 176-185. Price per section includes plugs, bushes and diverter.

End Panels for the Vip & Oscar must be specified at time of order, please see pages 175 for more information.

Aluminium Colours

All our Sectional Aluminium radiators are available in a selection of the top 25 most popular colours from the RAL range as well as 32 exclusive special finishes.

These radiators provide both the efficiencies of aluminium and a stunning finish.

Available in up to 3 weeks.

Please call **01342 302250** for a RAL or Special Finish chart

For orders of more than 10 radiators in colour or special finishes please allow an extra 10 working days for delivery.

Aluminium Accessories

Hanging Bars & Pegs

These towel bars and pegs are designed to fit all of our sectional aluminium ranges except the Ottimo. Ideal for providing additional hanging space to air towels or hang bathrobes. **Available from stock in 48-72 hours.**

25 RAL colours available for your Aluminium radiator to be painted in see page 215 for full range

Cast Iron

Our cast iron range includes a choice of ornate and plain school house designs. Available in a choice of finishes including painted polished and burnished cast iron radiators can be specified by section so you can choose the right size for your space.

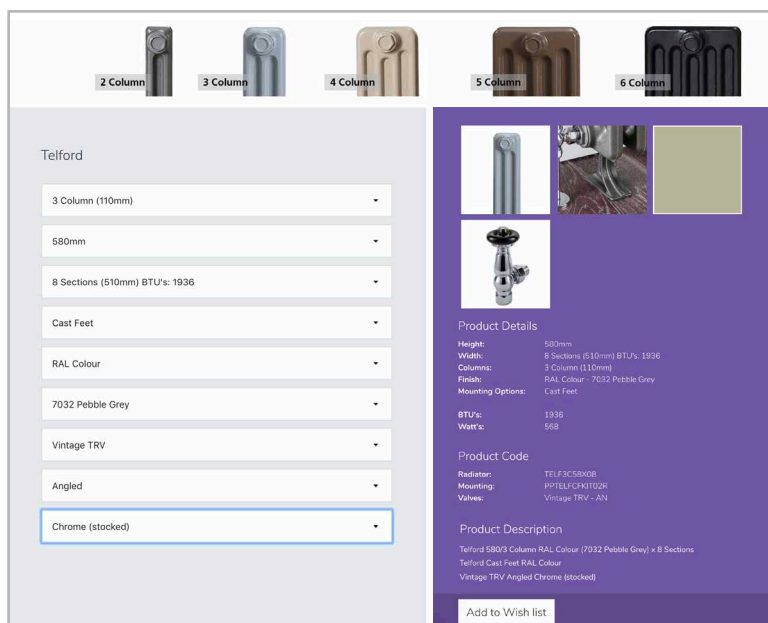

SAVE UP TO £36
WHEN YOU BUY OUR **CHROME VINTAGE TRV KIT** WITH ANY **CAST IRON ORDER*** PLEASE QUOTE **PROMOV2** AT TIME OF ORDER

*Saving based on the value of individual items when bought separately. Order any of our selected valves and matching pipe covers at the same time as your radiator.

Choose your radiator using our online radiator builder

Once you know your outputs use our **online radiator builder** to select the best solution for your room. It will take you through the process quickly and easily and allows you to save your ideas to your own Wish List. Go to our website www.theradiatorcompany.co.uk

It is vital to know the correct heat output you need to keep your room warm, use our online Heat Output Calculator to get a guide to your requirements which you can then check with your installer.

Once you know your outputs you can also use the brochure to specify your radiator by following these steps (or call our Customer Services team on 01342 302250 who will help you size your radiator)

- Note the space you have in mind for the radiator(s) you need; vertical or horizontal, length, height & depth
- Select a column option and height that fits your space; Calculate the number of sections you need by dividing the required BTU (Watt) output with the output per section; e.g 1913 BTUs divided by 328' = 6 sections, based on 4 column, 580mm high sections (always round up to the next whole number of sections)
- If using that section size doesn't work in the space available, try a different column option or if possible a different height
- Once you have calculated the best number and size of section, select the best mounting option and kit; footed end section, cast feet or wall brackets. For the Telford you have the option of footed ends, cast feet or wall brackets. Ledbury is available with footed ends as standard, wall brackets are available on request. Uxbridge, Aston, Trieste and Linton ranges are only available with footed ends.
- Your cast iron radiator can be painted in a selection of the most popular colours from the RAL range, special finishes, in a polished or burnished finished (Trieste) or a lacquered finish. Please specify your chosen colour at time of order. Please note: as a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.
- Work out the price of your radiator; e.g *Telford 4 column, 580 high, 6 section, RAL 7044 - Silk Grey = £86.35 x 6 = £518.10 + Cast feet Kit (2) = £91.20 - Total = £609.30*
- Place your order with your local Merchant using the sectional model code x No. of sections needed, noting the mounting option and the name and number of colour you have chosen; e.g *TELF4C58 x 6 sections, RAL 7044 Silk Grey with cast feet*
- If you have chosen a colour make sure you list the colour number and name

All prices and outputs are given per section in the tables on pages 187-193. Price per section includes plugs, bushes and diverter. Mounting options must be selected separately, these will include the air vent and appropriate number of wall ties.

Uxbridge shown on pages 72-73

Cast Iron; 4 column footed ends as standard
CE approved & certified to BS EN442

Supplied in a standard primer, ready to be painted in your desired finish

Please specify your finish at time of order

Joining Keys

Cast iron radiators come assembled up to a maximum of 10 sections. Radiators larger than these will require on site assembly using an appropriate Joining Key.

- The Basic key is for joining up to three 2, 3 or 4 column radiators, consisting of two blocks of sections to make one radiator. For more than 3 radiators you must use the Heavy Duty Joining Key available on a sale or return basis.
- The Heavy Duty joining key must be used to join all 5 or 6 column radiators and any radiator (2, 3, 4, 5 or 6 column) requiring more than two individual blocks of sections to be joined to make one radiator, or more than 3 radiators, in order to create the consistent torque required for a water tight seal.
- The Heavy Duty Joining Key is available on a sale or return basis.** Joining Keys must be specified at time of order for assistance please contact our Customer Service team on 01342 302250, they will also arrange a courier to collect it from you when you are ready.

The Trieste is a free standing radiator and is supplied with footed end sections only.

Trieste	Pipe centres left to right	Pipe centres from wall
2 Column	76 x number of sections + 24mm bushes + valves	As a free standing radiator pipe centres depend on final position.
3 Column	78 x number of sections + 24mm bushes + valves	As a free standing radiator pipe centres depend on final position.

*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator.

Some of the 31 special finishes the Trieste is available in, please call **01342 302250** for our special finish chart

Farrow & Ball® Paints

Using only genuine Farrow & Ball® Estate Eggshell, we can finish your Aston, Linton, Ledbury or Trieste Radiator in any of the 132 colours in the F&B range. Each radiator undergoes a rigorous painting process to ensure the best quality finish;

1. Two coats of etch primer using an acid key to bond with the iron and form a watertight barrier
2. Two coats of base primer, providing a durable undercoat
3. Up to four top coats of Farrow & Ball® Estate Eggshell to get a great finish
4. Up to 2 hours in the curing oven and then left to cure for at least 24 hours before packaging

Build your radiator to fit your requirements using individual sections shown below, visit page 186 to help you size your radiator. If you require more than 40 sections please contact our Customer Services team on 01342 302250.

Pipe centres and technical drawings can be found on relevant pages listed by each cast iron product.

Poll Chrome

The Poll Chrome is different to the Poll as it does not have a top and bottom collector; this is so it can be finished in a deep and lustrous chrome.

↑ Position of element electric models

The Poppy Electric range is available in white & chrome and supplied with a fully controllable electric element. Offering 8 function modes, they can be set to operate when you wish, on a daily basis or you can select one of the three pre-set programmes. The Open Window function detects an open external door or window and will turn the radiator off if it which is allowing heat to escape so saving energy and money.

- Boost mode (2h at max power)
- Timer mode (configure different temperatures value for each hour and day of the week),
- Comfort mode (desired user temperature),
- Night mode, Pilot-wire mode, Antifreeze mode, Holiday mode
- Adaptive Start Control, open windows, ON/OFF button and a security lock for children.

*Saving based on the value of individual items when bought separately. Order any of our selected valves & matching pipe covers at the same time as your radiator; PROMOV3W (white), PROMOV3C (chrome).

RAL 9001 - Cream

RAL 9004 - Signal black

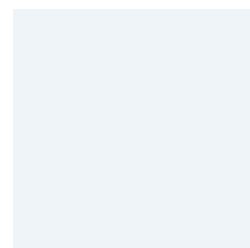

RAL 9005 - Jet black

RAL 9006 - White aluminium

RAL 9007 - Grey aluminium

RAL 9016 - Traffic white

Please Note: Due to printing processes and manufacturing tolerances the colour of finished radiators may vary slightly from those colours shown above. Please call Customer Services on 01342 302250 for a RAL chart.

Helpful Advice

Made to Order

We pride ourselves in having the widest range of sizes, options, colours and accessories so that you have literally thousands of options to choose from.

This means that you can have almost any radiator made to order so that it perfectly suits the space you have available, your interior design and it will also match your heat requirements.

Colour Options

Many of our designs are available in a large selection of RAL colours (188 internationally recognised paint colours) and Special Finishes. If you would like a copy of our RAL or Special Finish chart please contact us on 01342 302250. Please note that due to the printing process and manufacturing tolerances the colour (including white) of a finished radiator may vary slightly from the colours represented in the brochure and from one colour group to another as well as from our Special Finish & RAL charts. It should also be noted that if the same type of radiators are ordered and produced they may also differ in finished colour from any previously ordered.

Stock

To provide the best possible service we hold the most popular sizes of white and chrome models in stock. So if you need quick delivery look in the technical section for models listed with **bold** prices; these can usually be delivered within 48-72 hours.

How much heat?

We always recommend you choose radiators with a higher output than required, as you can always turn them down & have the reassurance of additional heat in really cold spells.

How is heat output measured?

There are two recognised measurements for heat output; BTU's (British Thermal Unit) and Watts. Within this brochure you will find both listed in the technical section by each radiator.

Delta T's

The heat output of a radiator is established using a calculation called a delta T (ΔT), based on a desired room temperature of 20°C and boiler flow and return temperatures; European standards use delta t50°C as a measurement, this is based on a boiler flow temperature of 80°C and a return of 60°C ($80^\circ\text{C} + 60^\circ\text{C} \div 2 - 20^\circ\text{C} = 50^\circ\text{C}$). Some systems using renewable energy sources may have different flow and returns and therefore different delta T's (e.g. $60^\circ\text{C}/40^\circ\text{C} = \text{delta T}30^\circ\text{C}$). If you require outputs based on alternative delta's please contact us on 01342 302250.

EN442

Our radiators are produced & outputs measured according to the European standard EN442. This standard uses delta t50 to provide a consistent and comparative output measurement. Some installers may still use the old delta T60 as a measure of output, to convert use the following correction factors; $\Delta T50$ to $\Delta T60$ multiply by 1.267, $\Delta T60$ to $\Delta T50$ multiply by 0.781

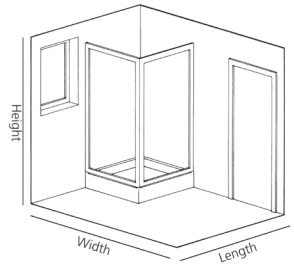

How can I find out what heat outputs I need?

Your installer should be able to confirm the exact requirements for each of your rooms, but you can also visit our website (www.theradiatorcompany.co.uk) and use our online heat calculator or use the following simple calculation as a guide;

1. Find the volume of your room in cubic feet = height x width x length (To convert cubic meters into cubic feet multiply the total figure by 35.31).
2. Multiply the volume by 6 to find the Btu requirement. If you need to know the Watts equivalent, divide your Btu by 3.412.

For example:

A bathroom 6'x8' with 8' ceilings = a volume of 384 cubic feet multiply by 6 = 2304 Btu's

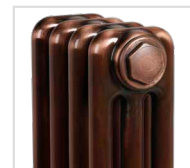

You may need more than 1 radiator in order to ensure an even distribution of heat in a large room, if so divide the required output by the total number of radiators you could sensibly place in the room.

e.g. a lounge 14' x 18' x 8' ceilings = 12096 Btu's.

Two radiators would require an output of = 6048 Btu's each, 3 radiators = 4032 Btu's each

Do different designs affect output?

By altering the size, shape or number of tubes or columns in a radiator you can adjust the output achieved, as this adds or subtracts surface area, the main contributor to heat output. For example the multiple column of our Ancona® range provide huge flexibility in achieving the right output in a limited space.

Single or double radiators

Using models with additional rows of tubes or multiple columns maximises heat output within the same wall space.

Our Water Lily design comes in single or double versions, as an example of comparative heat outputs:

Water Lily single 2020mm x 312mm = 2300 Btu's

Water Lily double 2020mm x 312mm = 2989 Btu's

Water Lily single

Water Lily double

Horizontal or Vertical;

Many of our designs are available in horizontal or vertical options which means you can maximise the use of ceiling heights and long low spaces, without losing output.

How to order

Order your radiator in six easy steps

- 1. Confirm your heat output requirements for the room where you need the radiator or towel rail;** this ensures the radiators you choose will deliver the heat output you need. Use the heat output calculator on our website www.theradiatorcompany.co.uk then decide how many radiators you need for the relevant room; discuss this and positions with your Installer If needed.
- 2. Choose your design;** our range has everything from traditional cast iron to modern feature radiators even an environmentally friendly aluminium range, with an extensive choice of sizes, colours & outputs.
- 3. Select a size that matches the heat output requirement;** outputs are shown in our technical section & will help you & your installer to find the best match for your needs.
- 4. Choose the colour you want;** with over 220 colours & special finishes you are able to match your colour scheme or introduce an accent colour to create a striking feature.
- 5. Find a valve to complete the look;** Choose from our wide selection of valves and add any accessories that complement your choice.
- 6. Order from your nearest showroom or merchant;** to find your nearest branch call us on **01342 302250** or visit www.theradiatorcompany.co.uk

For help in choosing a sectional radiator (modular radiators that can be built by section to achieve a size and/or output requirement) please visit our website to use one of our online radiator builders for Ancona® Steel Multi Column, Cast Iron and Sectional Aluminium.

Our Product Range

- All our radiators are produced and outputs measured in accordance with European standard BS EN442 and as such are **CE** approved.
- Radiators are supplied with BOE connections as standard unless otherwise stated. B2 underneath connections can be supplied with selected models. Full technical details can be found from pages 128 to 214 and all details are in accordance with our factory or manufacturing partner's terms of reference at the time of going to print.
- Due to the excessively corrosive nature of chlorine we do not recommend that radiators & towel rails are placed in swimming pool environments. In addition radiators should not be located in areas that have long term exposure to high levels of moisture without suitable ventilation.
- When commissioning any radiator (including aluminium) on an indirect/closed system we recommend using a suitable mixed metal inhibitor in suitable quantities to protect against scale & corrosion. We can provide the water content of our radiators if required to help the installer calculate this if needed.

Electric / Dual Fuel

Selected towel rails can be converted to work as dual fuel models. An element and T-piece is needed to adapt the towel rail; your installer will need to be aware if you wish to do this in order to adjust pipe centres accordingly. See pages 114 - 115 for our range of elements. If a towel rail is suitable for dual fuel it will be noted in the Product Information box.

Pipe Centres

We endeavour to ensure all pipe centres are correct, however manufacturing tolerances must be considered. Therefore we strongly recommend that pipe work is not altered or adjusted until your new radiator or towel rail is delivered. The Radiator Company will not accept any responsibility for claims resulting from incorrect pipe centres.

Delta T's

The heat output of a radiator is established using a calculation called a delta T (ΔT), based on a desired room temperature of 20°C and boiler flow & return temperatures; European standards use delta t50°C as a measurement, this is based on a boiler flow temperature of 80°C and a return of 60°C ($80^\circ\text{C} + 60^\circ\text{C} \div 2 - 20^\circ\text{C} = 50^\circ\text{C}$). Some systems using renewable energy sources may have different flow and returns and therefore different delta T's (e.g 60°C/40°C = delta T30°C). If you require outputs based on alternative delta's please contact us on 01342 302250.

Delivery

Please note that many of our factories close for 2-4 weeks during the holiday periods of July/August and December. This may extend the delivery period quoted for non stock made to order items ordered during July/August & December/January. We will confirm the expected delivery date on our order acknowledgement at the time of order. Unfortunately delivery to Scotland / Offshore Islands may take longer due to the distances involved. Deliveries will be made to the nearest hard standing area.

Systems

All radiators and towel rails featured in this brochure are suitable for indirect/closed systems that comply with 'BS5449, section 1 forced circulation hot water systems'.

Systems running with low pressures (under 1 Bar), microbore pipework or modern boilers with modulating pumps, may experience flow and heating issues if not accounted for in the system design which could result in radiators not heating fully or noisy pipework.

Direct heating systems use your hot water supply to heat a radiator; usually this will occur in a bathroom. If you have any radiators or towel rails linked to a direct system they should be made from either stainless steel or brass to avoid rusting and contaminating the hot water supply. However it should be noted that these radiators are not suitable for Direct systems fitted with a water softener.

Powder coat finishes and Painted cast iron

It should be noted that due to the production process colours can vary by +/- 5 to 10% from samples provided and between radiators ordered in the same colour at different times.

All painted cast iron radiators will be checked and tested prior to despatch. Care must be taken when handling and joining painted cast iron radiators on site to avoid damaging the finish. Cast iron radiators will be supplied with a small bottle of touch up paint in case of damage to the finish during installation, however it should be noted that this may vary slightly from the standard powder coat finish. As a result of the casting process, cast iron radiators have a rough surface finish with small imperfections which will show after the painting process.

Terms & Conditions

For a copy of The Radiator Company full Terms & Conditions please call our Customer Services department on **01342 302250** or visit www.theradiatorcompany.co.uk
